

THE POWER OF *Education*

Limited access to quality childhood education in Haiti is a major factor in sustaining the country's ongoing cycles of generational poverty and dependency. It is also one of the primary reasons parents relinquish their children to the orphanage in hopes of providing them with a better future. For true and lasting change to ever be realized by Haiti, education must be prioritized, because **education means LIFE** and it is the key to opening the doors of freedom, hope and opportunity for the future of Haiti.

*One child. One scholarship.
Unlimited opportunity.*

TOP *Five* REASONS TO INVEST IN EDUCATION

1. STRONGER CHILDREN

When children are in school, child labor is reduced and the risk of trafficking, exploitation and gang involvement decreases significantly.

2. STRONGER FAMILIES

Parents are more likely to keep their children at home and families intact when they don't have to worry about funding their education.

3. STRONGER COMMUNITIES

Educated children are more likely to demonstrate a sense of belonging, civic responsibility and community engagement.

4. STRONGER ECONOMY

Educated children are far more likely to be employed or start their own businesses, both of which stimulate the local economy.

5. STRONGER FUTURES

Education increases a child's likelihood of becoming an independent, self-sufficient, contributing member of society.

Education matters. Invest today!
