

HERE'S HOW WE CAN BUILD HAITI STRONGER — TOGETHER

PROTECT HAITI'S CHILDREN

At Overture, we share a profound conviction that every child deserves a safe, loving home and the opportunity to thrive. This belief informs all that we do, including our mission to equip families and communities with the vital knowledge, tools and resources needed to move from dependence to self-reliance. We do this through our Overture Social Support Model and its Five Essential Pillars. **And we do it all for the sake of the children.**

As part of our first pillar — **EMPOWERMENT** — and in partnership with IBESR (*Haiti's child welfare agency*) and BPM (*Haiti's judicial arm for the protection of minors*), we have strategically laid the groundwork for three core initiatives that will **drive our work to safeguard children and build Haiti Stronger — Together!**

- ▶ **Reunification:** We focus on moving children from harmful orphanages to safe, nurturing environments — either by reuniting them with their families or placing them in caring foster homes. **Every reunification strengthens both the child and the community.**
- ▶ **Reintegration:** We equip vulnerable street children and their families with education support, psychological counseling and vocational training **to break the cycle of poverty and achieve long-term success.**
- ▶ **Rejuvenation:** We empower at-risk youth, including those emerging from gang life, facing incarceration or currently imprisoned by providing pathways to reject destructive behaviors and reintegrate into society. **Each success is a beacon of change for future generations.**

INVEST IN OUR OTHER ESSENTIAL SOCIAL SUPPORT SERVICES

2. EDUCATION

A family's inability to pay for schooling is a leading reason parents relinquish their children to orphanages. You can stop this unnecessary breakdown of a family by supporting a scholarship for a vulnerable child.

3. NUTRITION

Programs like our Diri Lavi! food packaging program and our community farm programs are empowering Haitians every day. Your support can enable families to have long-term food security and a source of income for their families.

4. HEALTHCARE

In most of the rural communities we serve, families are unable to access even the most basic healthcare services. When you support our mobile clinics, you are ensuring families have access to quality medical care, public health education and mental health counseling.

5. INFRASTRUCTURE

Building stronger communities requires more than just building up the people, it requires investing in physical infrastructure to support basic human needs like homes, schools, medical clinics, community centers and more. Without these essentials, a community stands no chance at fostering independence or self-sufficiency.
